RE: US 281 / Loop 1604 Interchange

US 281 Loop 1604 Interchange Open House and Public Meeting

Welcome!

On behalf of the Alamo Regional Mobility Authority, thank you for joining us this evening to review the proposed US 281 / Loop 1604 Interchange improvements and to offer your comments as part of the official record of this project.

Please visit each of the stations to learn more about the project, ask questions and please provide us with your comments. The Open House will continue until 7 p.m. at which time the formal presentation will begin. At the conclusion of the formal presentation, the Open House will be staffed for any additional questions you may have, and to allow you an additional chance to sign up to speak during the public comment portion of the meeting.

Stations

General Overview

Take a look at the overall project, what it is designed to accomplish and how it can change how you use the Loop 1604 / US 281 Interchange.

Environmental Questions and Concerns

Ever wondered what type of studies and information are examined when we engage in environmental studies for transportation projects? This station will focus on the environmental studies and results based on the proposed interchange. A copy of the draft Categorical Exclusion is also available for review at this station.

Alamo RMA – Information

If you have ever wondered who or what the Alamo RMA is, this station will help answer those questions. Get information on what a Regional Mobility Authority is, and how the Alamo RMA is working to bring projects to the community to help relieve congestion.

Court Reporter

If you would like to have your comments taken by a court reporter, please visit this table.

Formal Presentation and Public Comment Period

The Alamo RMA will be presenting a formal presentation on the proposed improvements, and environmental document for this project starting at 7 p.m. This presentation is estimated to take approximately 20 minutes. At the conclusion of the presentation, there will be a ten minute break to allow you additional time to review the open house stations, and sign up to speak for the public comment portion of the meeting.

For the public comment portion of the evening, please note the following guidelines to allow everyone a chance to speak:

- Each speaker receives 3 minutes to make comments at the microphone designated at the front of the room
- Time is not transferable between speakers
- A timer will display the 3 minutes allotted, which starts when the speaker begins talking

Again, thank you for joining us this evening. There is an evaluation form on the back that we ask you to complete and leave with us.

Meeting Evaluation

Thank you for attending the public workshop on the US 281 Super Street Project. Your participation is appreciated.

In order to ensure that future events make the most out of your time commitment, please fill out the following evaluation:

How would you rate today's public workshop?	Excellent Poor				
How would you rate the formal presentation presented tonight?					
How would you rate the information provided at each station?					
Were your questions answered adequately?					
Please rate the materials presented. Were they organized and appropriate to the subject matter?					
How effectively was your time utilized?					

OPTIONAL: So that we can continue to remain in touch with you during this project, please provide the following:

Name: _____ **Phone:** _____

Email: _____

What would be the best way to provide you with follow up information?

Email Notice ____ Newsletter ____ Community Open House ____ Public Announcement ____

Please use the space provided for any additional comments concerning the proposed US 281 Loop 1604 Interchange:

US 281 Loop 1604 Interchange Frequently Asked Questions – January 11, 2010

ALAMORMA
Alamo Regional Mobility Authority
"Moving people faster"

US 281 / Loop 1604 Proposed Interchange Frequently Asked Questions January 11, 2010

Q: Why are you only building four connectors?

A: With a \$140 million budget, the Alamo RMA's analysis of this intersection shows the four connectors being built to have the highest volume of traffic among the eight movements vehicles can make in the intersection. These four connectors will provide the greatest relief to motorists when completed, and will also not impact the ongoing environmental impact statement work being done for long-term improvements to US 281 north of Loop 1604.

Q: Isn't this a bait and switch? Why spend money on the interchange instead of fixing 281?

A: The US 281 project, north of Loop 1604, does not have an active environmental clearance to allow for new through lanes to be added to the corridor. Based on direction from the Federal Highway Administration, any new through lanes on US 281, north of Loop 1604, will require the preparation of an environmental impact statement, which the Alamo RMA is currently conducting. The Loop 1604 / US 281 interchange project, however, since it is an operational and safety improvement, is able to move forward as a categorical exclusion, and is able to meet the requirements for the obligation of federal stimulus funds, which, at this time, US 281 is unable to meet.

Q: Why is the Alamo RMA overseeing this project? Aren't they just a toll road authority?

A: The Alamo RMA, as the local regional mobility authority, is overseeing this project, the US 281 Super Street, and the environmental impact statements on both Loop 1604 and US 281 in their role as the local governmental entity responsible for improving mobility around our community. While the Alamo RMA can build and operate toll projects, they can also build and operate non-toll projects, and the Super Street and this proposed interchange are the first non-toll projects to be overseen by the Alamo RMA.

Q: How long is it going to take to build the Interchange?

A: Based on the latest estimates, construction should start in the spring of 2010 and be complete approximately 2 ½ years after construction starts. The exact time frame may vary dependent upon the design/build team selected as part of the ongoing procurement process.

US 281 Loop 1604 Interchange Frequently Asked Questions – January 11, 2010

Q: I hear that this project is using a CDA...does that mean it is going to be owned by a foreign company who will charge me to use it?

A: No. First, this is a non-toll project, and once construction is complete, will be owned by the state of Texas. Second, the Alamo RMA, as the local regional mobility authority, can enter into design / build comprehensive development agreements for both toll and non-toll projects and has elected to utilize the design/build approach for a non-toll project to accelerate the design and construction work to deliver this project to the community sooner than the time frame involved with a traditional design-bid-build approach contract. It is estimated the design/build approach can save up to a year of overall time for the community.

Q: Design/build...doesn't that mean there is no competition and you just decide who you want to award the contract to?

A: No, design/build is still a competitive process, and the team ultimately selected will be the best value proposer based on skill of the team, timeline for completion of the project, and a maximum price for the work to be done. The Alamo RMA currently has three teams competing for this project. A list of the teams who have been shortlisted can be found on www.AlamoRMA.org.

Q: If I want to see how this project is going to impact my roadway is there someplace I can see the animation files?

A: Yes, visit www.AlamoRMA.org or www.youtube.com/MovingPeopleFaster to see animations of the proposed interchange improvements, from all four approaches!

Q: How is this project being funded since I keep hearing there is no money for roads?

A: The US 281 / Loop 1604 Interchange is being funded from a combination of sources. Specifically, \$20 Million is coming from the local share of federal stimulus funds at the discretion of the San Antonio Bexar County Metropolitan Planning Organization, \$60 million is coming from the Texas Transportation Commission share of federal stimulus funds and \$60 Million is coming from Proposition 14 bonds on behalf of the state of Texas. This \$140 Million budget will cover all design, construction and oversight of this needed non-toll project.

Q: I still don't want a toll road. Is this going to make a toll road happen?

A: The Interchange project is separate from any discussions on toll lanes or tolling in San Antonio. This project is non-toll. The Alamo RMA, as the lead agency for the US 281 Environmental Impact Statement and the Loop 1604 Environmental Impact Statement, will be hosting public meetings and workshops as part of a new study to identify long-term improvements to US 281 and Loop 1604 and the discussions on how to pay for those roadway improvements will be included in the respective study for each roadway.

For information on the ongoing US 281 Environmental Impact Statement please visit www.411on281.com/US281EIS

For information on the Loop 1604 Environmental Impact Statement please visit www.MoreFor1604.com
